

Project Initialization and Planning Phase

Date	28 June 2026
Team ID	xxxxxxx
Project Name	A Comprehensive Measure of Well-Being
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

I am – A policy maker in a developing country.	I'm trying to - Predict my country's HDI score quickly.	But - No easy tool exists to predict HDI using basic indicators.	Because — Raw HDI data requires complex manual analysis .	Which makes me feel — Frustrated and unable to make fast decisions .
--	---	---	---	--

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A policy maker in a developing country .	Understand my country's HDI level and identify weak areas	I lack a quick data-driven tool to classify HDI performance	Manual analysis of life expectancy, education, and income data is complex	Frustrated and unable to make timely policy decisions
PS-2	A researcher studying global development	Predict HDI categories for countries using simple measurable indicators	Existing tools require heavy statistical expertise and domain knowledge	Raw HDI reports are published as long PDFs with no interactive prediction	Overwhelmed and unable to derive actionable insights efficiently
