

Communication

Date	02 July 2026
Team ID	XXXXXX
Project Name	A Comprehensive Measure of Well-Being
Maximum Marks	1 Mark

Communication Plan:

Effective communication is essential for a successful project demonstration. This document outlines the communication strategy used within the team and with stakeholders throughout the project lifecycle, including how updates, issues, and feedback were managed.

S. No	Communication Type	Frequency	Channel / Tool	Participants	Purpose
1	Team Standup	Daily	WhatsApp / SkillWallet Kanban updates	Rohit	Track daily progress on epics and move Kanban cards
2	Progress Update	Weekly	SkillWallet Kanban board status	Rohit, Mentor	Report completed milestones and move tasks to Review
3	Issue / Bug Discussion As Needed	As Needed	VS Code + ChatGPT/Claude assistance, mentor Q&A	Rohit	Resolve dataset column mismatches, notebook kernel errors, Flask routing issues
4	Stakeholder Review	Bi-Weekly	SkillWallet mentor review comments	Rohit, Mentor	Get feedback on submitted PDFs and model accuracy
5	Final Demo Rehearsal	Once	Local screen walkthrough of Flask app	Rohit	Rehearse full demo flow before final submission
6	GitHub Commit Log	Ongoing	GitHub repository	Rohit	Maintain version history of code changes

Communication Challenges & Resolutions:

S.No	Challenge Faced	Resolution / Action Taken
1	Original reference dataset (GitHub HDI.csv) returned a 404 error	Sourced an alternative UNDP dataset from Kaggle and remapped column names to match required features
2	Notebook kernel losing variables between cell reruns (NameError: y_pred not defined)	Restarted the kernel and consolidated all training steps into a single, ordered cell to avoid execution-order issues
3	Column name mismatch caused ValueError (could not convert string 'Switzerland' to float)	Removed the Country column from the feature set X, keeping only the 4 numeric indicators
